

**THE CYCLE OF CANCER
PATIENT NAVIGATION
IN
WASHINGTON COUNTY
MAY 1, 2018**

DOWNEAST CANCER PATIENT NAVIGATION

- The Beth C. Wright Cancer Resource Center and Healthy Acadia collaborate to provide community-based cancer patient navigation to cancer patients and their caregivers. Washington County has the highest rate of cancer mortality of any Maine county.
- Our patient navigators offer support to cancer patients and caregivers and empower them to overcome barriers to their care. These barriers include but are not limited to: financial/economic assistance, health/healthcare literacy, health insurance navigation, access to transportation, connection to social/support networks and systems, and access to resources that support healthy diets and lifestyle habits to complement individual treatment and recovery protocols.

Maine Cancer Foundation's grant is offered as part of their ongoing Challenge Cancer 2020 initiative, aimed at reducing cancer incidence and mortality 20% by 2020. They have awarded nearly \$6 million since 2015 in support of this initiative, focused on prevention, early detection and screening, and access to care for all Mainers. To learn more about Maine Cancer Foundation, visit mainecancer.org, or contact Kristen Smith, kristen@mainecancer.org, 207.773.2533.
